How did the Fund perform last year?

Large-Cap Growth ProFund (the "Fund") seeks investment results, before fees and expenses, that track the performance of the S&P 500® Growth Index (the "Index").

The Fund invests in financial instruments that ProFund Advisors believes, in combination, should track the performance of the Index.

For the year ended July 31, 2025, the Fund had an average daily statistical correlation of over 0.99 to the daily performance of the Index. For the same period, the Index had a total return of 25.65% and a volatility of 24.36%. The index performance was driven by mega cap growth outperformance.

Primary factors affecting Fund performance include the total return of the securities held by the Fund, expenses, transaction costs, the volatility of a Fund's index, and other miscellaneous factors.
