(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Service Class	\$290	2.78%

How did the Fund perform last year?

UltraLatin America ProFund (the "Fund") seeks daily investment results, before fees and expenses, that correspond to two times (2x) of the daily performance of the S&P Latin America 35 ADR Index (USD) (the "Index").

The Fund invests in financial instruments that ProFund Advisors believes, in combination, should produce daily returns consistent with the Fund's investment objective.

For the year ended July 31, 2025, the Fund had an average daily statistical correlation of over 0.99 to twice that of the daily performance of the Index. For the same period, the Index had a total return of 12.16% and a volatility of 21.12%. The index performance was driven by decent economic growth and falling inflation.

Primary factors affecting Fund performance include the total return of the securities and derivatives held by the Fund, the performance of the reference assets to which the derivatives are linked, financing rates paid or earned, expenses, transaction costs, the volatility of the Fund's Index, the impact of compounding, and other miscellaneous factors.
