## What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Investor Class	\$196	1.78%

## How did the Fund perform last year?

**Industrials UltraSector ProFund** (the "Fund") seeks daily investment results, before fees and expenses, that correspond to one and one-half times (1.5x) of the daily performance of the S&P Industrials Select Sector Index (the "Index"). The Fund invests in financial instruments that ProFund Advisors believes, in combination, should produce daily returns consistent with the Fund's investment objective. For the year ended July 31, 2024, the Fund had an average daily statistical correlation of over 0.99 to one and one-half times the daily performance of the Index. For the same period, the Index had a total return of 17.77% and a volatility of 12.75%. The Index performance was driven by factors such as a cyclical recovery following the pandemic. Primary factors affecting Fund performance include the total return of the securities and derivatives held by the Fund, the performance of the reference assets to which the derivatives are linked, financing rates paid or earned, expenses, transaction costs, the volatility of the Fund's Index, the impact of compounding, and other miscellaneous factors.

## Cumulative performance: August 1, 2014 through July 31, 2024

Total Return Based on \$10,000 Investment

The chart above represents historical performance of a hypothetical investment of \$10,000 in the Fund over the past ten years (or since inception if shorter). Performance data quoted represents past performance and does not guarantee future results. Returns shown are total returns, which assume the reinvestment of dividends and capital gains. The table and graph presented above do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of fund shares.
