Income from U.S. Government Securities

Calendar Year 2025

During the calendar year, certain funds invested in securities issued by the United States Government or other federal agencies (collectively, "U.S. Government Securities"). Under federal law, the interest on these securities is exempt from state taxation. Certain states also exempt from state income tax the dividend income a mutual fund shareholder receives that is derived from the fund's investment in these U.S. Government Securities.

The table below provides the percentages of calendar year 2025 ordinary income dividends derived from investments in U.S. Government Securities. To determine the amount which may be exempt from state income tax, multiply the amount reported in box 1a of Form 1099-DIV by the percentage shown in the table below.

California, Connecticut, and New York require that a mutual fund maintain certain minimum investments in U.S. Government Securities in order for the dividend income derived from these obligations to be exempt from state income tax. The Funds listed below with an asterisk (*) met these requirements for calendar year 2025.
