## Daily return during 4Q 2018

**Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Performance data current to the most recent month-end is available at ProFunds.com or by calling 1-888-776-3637.**

Many ProFunds routinely employ leveraged investment techniques that magnify gains and losses, and result in greater volatility in value. Each geared (leveraged or inverse) ProFund seeks a return that is a multiple (e.g., 2x, 1.5x, -1x) of the return of an index or other benchmark (target) for a single day. Due to the compounding of daily returns, geared ProFunds' returns over periods other than one day will likely differ in amount and possibly direction from the target return for the same period. These effects may be more pronounced in funds with larger or inverse multiples and in funds with volatile benchmarks. Investors should monitor their ProFunds holdings consistent with their strategies, as frequently as daily. For more on risks, please read the prospectus.

\*Variable Product ("VP") shares are not available for retail purchase but are made available through insurance company separate accounts to serve as an investment option for variable life and annuity insurance contracts. Investors do not contact the Fund directly to purchase or redeem shares. Please refer to the prospectus for the relevant insurance product for additional information.

<sup>1</sup>Contractual waiver effective until April 30, 2019. Without such a waiver of fees, the total returns may have been lower.
